SEO keywords Tracking Report

FNB Website is registering continuous excellent results despite few fluctuations; The website is featured on Google 1st page on keywords pertaining to all major sections i.e. Loans, Cards, Accounts, Services and Bancassurance and in some words we are among the first 3 banks in the first page.

The website is now better ranked on Google's 1st page on "Private Banking" and "Business Banking" related keywords; More progress is to be seen in the upcoming period.

We had excellent initial results for the "Car Loan" and "Personal Loan" Categories

SEO keywords Tracking Report

FNB website is starting to dominate Google's organic ranking on all banking related keywords

SEO has also a big positive impact on the branding and the brand reputation of the website; by being featured on Google's 1st page, Google transmits trust to FNB's website which is translated into more credibility and brand equity.

Organic traffic represents the second source of traffic to FNB website and processes the best traffic metrics in terms of bounce rate.
